## NovoSci Medical Manufacturing

From concept development to custom assembly NovoSci Manufacturing Services provides medical device manufacturers with a wide range of solutions, seasoned resources, and outstanding customer service.

Our manufacturing experience includes custom tubing packs for CV surgery, small medical electronic assemblies, custom assembly and packaging.

We manufacture in 12,000 sq. ft. of class 10,000 (ISO 7) space with an array of equipment to support your manufacturing and packaging needs. Our manufacturing team is committed to providing excellence through outstanding quality.

NovoSci is a FDA registered facility and is ISO 13485:2003 certified.

**Are you looking for a turnkey packaging and assembly partner?**

Contact us for competitive pricing for contract manufacturing services including packaging and assembly.

## NovoSci Sterilization Solutions

Our mission is to help you improve your profitability by minimizing processing time, reducing transportation costs, and providing turnkey validation and sterilization processes. We are committed to providing the highest quality sterilization services to meet your critical operational needs.

As Southeast Texas' largest 100% ethylene oxide contract sterilization facility, we provide convenience, flexibility and very competitive pricing. In addition to sterilization services NovoSci Sterilization Solutions provides turnkey validation development and laboratory testing.

Our Quality System is certified to ISO 11135 / EN550.
