

NovoSci™

Pediatric Tubing Organizer

NovoSci is pleased to announce the introduction of the Pediatric Tubing Organizer.

The Pediatric Tubing Organizer is ideally suited for

- Pediatric and infant cardiac surgery
- ECMO and post-operative cardiac support
- Anesthesia and Intensive care medicine
- Transplantation teams

FEATURES

- Easy attachment via secure clamps or suture holes
- Small, compact size with excellent visualization of all lines
- Curved opening to accommodate cautery lines and suction tubing
- Tubing is locked into the holder by the shape of the opening

The NovoSci Pediatric Tubing Organizer will accept the following tubing sizes:

(2) 3/8" lines • (4) 1/4" lines • (2) 3/32" IV lines • (2) 1/8" lines
